

Questionnaire “Checkpoint” HIV rapid test

Dear visitor,

This questionnaire helps us to give you an optimal risk consulting.

At the start we’re going to ask you for some personal details followed by questions about your sex life. All personal data is anonymous and will be treated confidentially.

Please remember: Between a possible unsafe/risky situation and this rapid test must be at least 12 weeks to get a clear and significant test result.

If there is a lack of clarity, you need help with this questionnaire or if you have any further questions don’t hesitate to ask the person who gave you this questionnaire.

Internal only (Do not fill in)
